

Jason R. Levine

- ★ Eighteen years of experience as an English teacher, teacher trainer, and materials writer
- ★ Create songs and videos for English language learners, teachers, and schools
- ★ Conduct teacher training programs and student workshops in countries worldwide
- ★ Creator of the online speaking practice program, the Weekly English Workout
- ★ Write materials for Oxford University Press
- ★ Work as an English Specialist for the U.S. Department of State

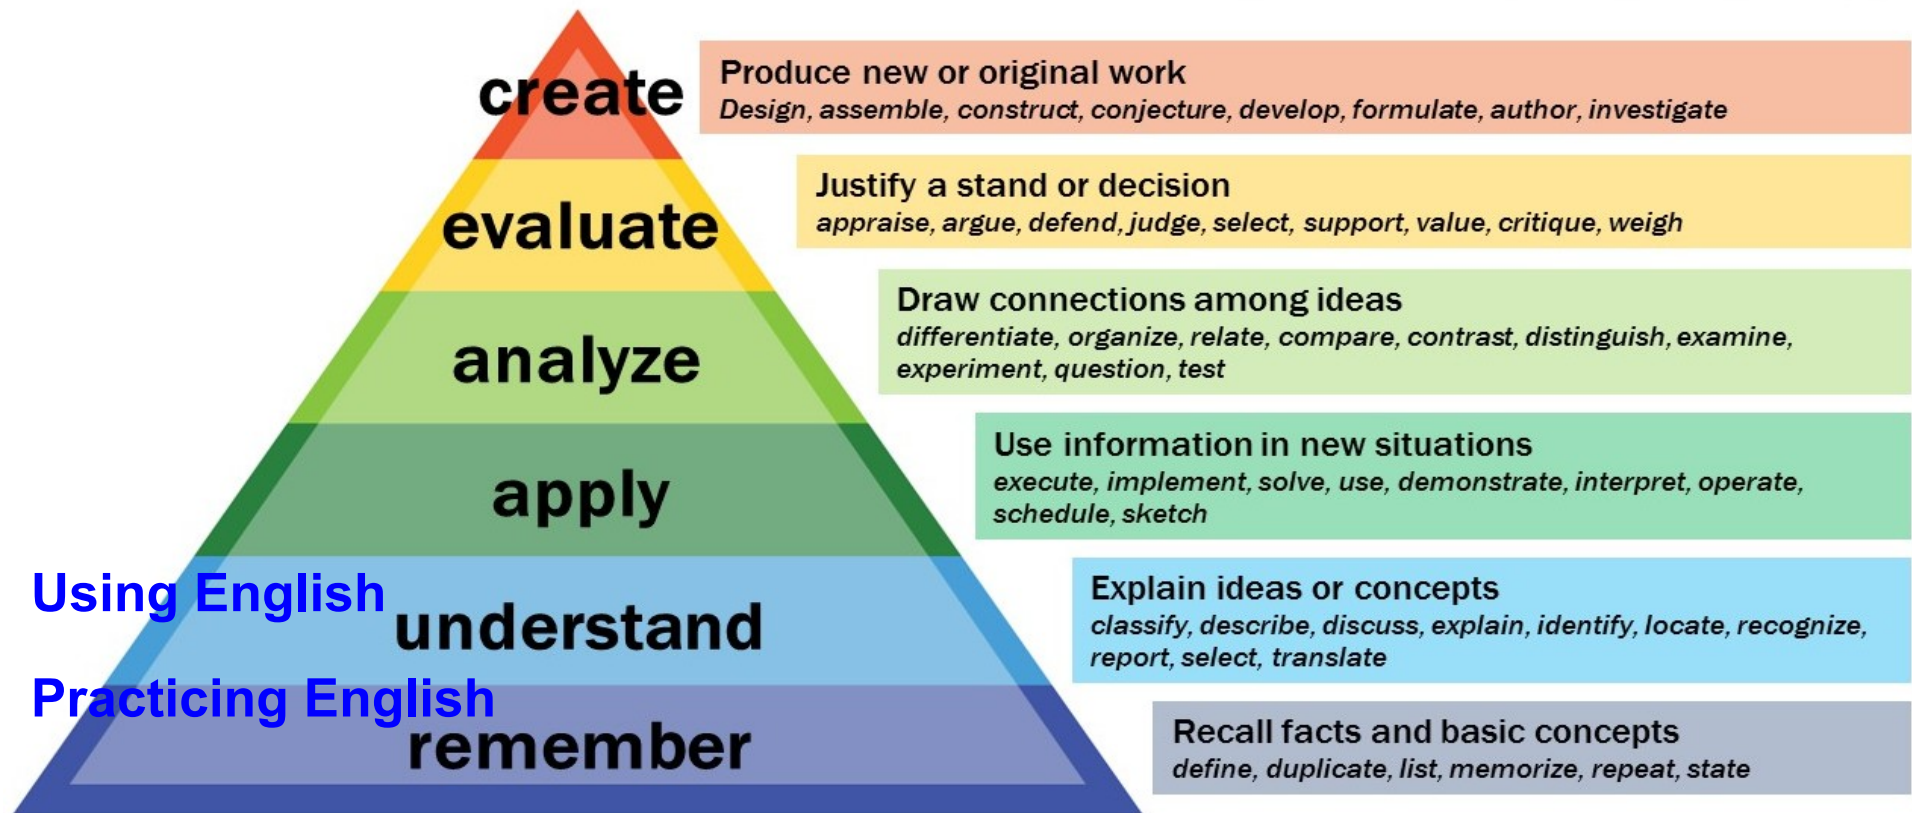

English learners do not typically
get sufficient and effective
practice with target language.

My objective: to help English
teachers and schools provide
learners with engaging practice,
in and out of the classroom.

Learning about English
Practicing English
Using English

Can students go directly
from *learning about English*
to *using English*?

Bloom's Taxonomy

FLUENCY MC
RELAX REPEAT REMEMBER

Without sufficient practice, students...

...are **not prepared** to use the language from their lessons.

...are **not motivated** to do activities in class.

...**lose confidence** in their potential.

...are **less likely to use English** outside of class.

**The Weekly English Workout
is a fun and innovative way to become fluent**
